1. Meeting Purpose *(Persuade, Inform, or Diagnose)*

Diagnose - at first - find out what is happening for them in their higer risk work force and contractors
Inform - share some learnings about what they have happening that might have been dealt with at other councils
Persuade - if appropriate - to run an initial assessment or audit

2. Meeting Objectives

Build trust and confidence in us as a new company to them
Learn how they do things now, and what is or isn't working around that
Find out what they would need to see/feel to consider changing what they do?
Discover how their decision process to change might work, and what next steps could be
Try and get buy-in to a trial

Decision Criteria or Important Issues *(Don't guess – validate and prioritize)*

Assumed *(Before meeting)*	**Verified** *(After meeting)*
Have a substantial number of 'at-risk' staff	
Past workplace safety initiatives have not all worked	
Policy costs increasing year on year	
Don't have all skills in-house to resolve	

Context *(Recent events, history, issues, competition, why not done before)*

Specific Action(s) We Want to Take Place as a Result of the Meeting

Questions or Objections the Executive(s) Might Have

Why should we trust you? Why are you any better than others?
What's our risk? What if we pay you and it doesn't work?

4. Customer Assessment

5. Questions We Will Ask *(Record Responses Here)*

You mentioned in our call you had a 'large number' of at-risk workers. How many?
How is your safety record looking? How is it trending?
What have you been doing and plan to do about that?
What does all that mean for your insurance costs?
How does a quick assessment to see if it is worth looking at changing sound?
